ABOUT US

Supergrads redefines management entrance preparation by focusing on what students truly need—not what competitors have been repeating for years. While most institutes rely on outdated teaching models and one-size-fits-all content, Supergrads is built on personalization, relevance, and results. Every student comes with a different starting point, and Supergrads designs preparation strategies that match individual strengths, gaps, and time constraints instead of burdening students with unnecessary material.

Led by Vijay Sir, who not only aced CAT himself but completed his MBA from India's top B-school, IIM Ahmedabad, solving first-hand student problems seamlessly. This young and dynamic leadership ensures that teaching stays current, exam-focused, and aligned with how management entrance tests actually evolve—unlike competitors who continue teaching the same content year after year.

The core strength of Supergrads lies in its mentorship-driven approach. Students are guided on what to study, how much to study, and in what order, eliminating confusion and wasted effort. This clarity has helped thousands of aspirants secure admissions to top B-schools, including multiple 99+ percentilers across the country.

More than just CAT preparation, Supergrads supports aspirants across all major management entrance exams like XAT, NMAT, SNAP, CMAT, MHCET etc., offering a single, focused platform for MBA aspirants. Backed by Toprankers' expertise in shaping careers beyond engineering and medicine, Supergrads delivers exactly what students need—personalized guidance, smart strategy, and a clear path to top business schools.

"I prepared for CAT with SuperGrads by Top Rankers, and the role of the faculty and study ecosystem was crucial in my journey. The classroom sheets, homework material, and insights shared by the mentors were highly relevant to CAT. The online portal was seamless, and the mocks were slightly tougher than the actual exam, which helped me feel well-prepared on exam day. Overall, the consistent guidance from the faculty made a significant difference in my performance! "

"I was a two-year CAT batch student at SuperGrads Jaipur and recently secured a 96.39 percentile in CAT 2025. The excellent library facility, along with helpful DCS sessions and mentorship support, played a major role in my preparation.

I am especially grateful to Hmon Sir for his constant guidance and support, even beyond official hours. My advice to future aspirants is to stay calm and composed on D-Day, as the pressure is very different from practice.! "

THE 3E PEDAGOGY

The inevitable Es of Your MBA Prep Journey..

Essentials

You know what!

The 'Essentials' module covers the Entire syllabus (quickly) in depth to appraise and make you feel confident about everything that's coming next. The focus is not just on covering the entire theory across Verbal Ability, Quantitative Aptitude, Logical Reasoning & Data Interpretation but practicing thousands of questions inside the classrooms, out in the open & at home. It's the problem-solving sessions, day-to-day struggles, moments of discomfort, regular (not-so-discomforting) tests, 1:1 doubt solving & chit-chats with the mentors, over a cup of tea or coffee, that will give you an objective perspective of Preparation and prepare you up for the Empower & Enhance Modules. In other words, 'Essentials' is the ideal launchpad for the all-essential CAT/OMETs Percentiles, sectional scores, cut-offs, ranks, motivation & confidence you need for the D-day.

Empower

Let's begin!

You understand things better when you do it the second time. Isn't it? This flagship Module covers the Entire Syllabus (once again). No. Not the (complete) theory. You have to revise it from the Essentials Module & (ideally) come prepared. We will revise the concepts (but via problem-solving) but the focus is on their application. The Empower Module empowers you with the CAT-level problem-solving techniques across all concepts. Yes! all concepts, via thousands of questions across Verbal Ability, Quantitative Aptitude, Logical Reasoning & Data Interpretation. Here, you also deep-dive into the world of Online CAT & OMETs Mocks, develop time-management skills, learn the art of attempting the paper (No matter how much you prepare, remember the golden rule: Paper Solving is an art), strategies to maximise your score, realise your weaker topics, areas of strengths & develop your customised-strategy for the last lap i.e. Enhance.

Enhance

So, what will be the Level of Difficulty of CAT next year? What will be the cut-offs? Will it be the most difficult one ever? How will Quantitative Aptitude or Verbal Ability look & feel like? How difficult will Logical Reasoning and Data Interpretation be? The Heros prepare for the worst & we want our students to be the Heros. To prepare you for the same & be the Hero of the D-day, the last lap of your CAT preparation will be the Enhance Module. It comprises of classroom discussions focussed on the higher level of difficulty across sections, multiple full-length mocks tests (at CAT+ level) in a week with (detailed) analysis, mentorship sessions on fine-tuning the Sectional Prep, discussions on level-up-ing the mental strength to face the D-day. The module also comprises of some special sessions on XAT but after CAT. Enhance sets-up the launchpad for admitSure.

TECHNOLOGY THAT HELPS YOU PERFORM BETTER.

The Test Engine that simulates the actual Examinations

Beyond the Video Analysis of the Mock Tests, there's the detailed solution to each and every question.

Get your Rank Variation, Percentile Variation & Comparision with 1, 10th & 100th Ranks in detail. Get details how your competitors are performing across multiple sections so that you can plan your strategy accordingly.

Your Score Variation vs the Sectional Toppers' Score. In examinations where there are sectional cut-offs, it's very important to know what a student could have scored vs what one has actually scored.

toprankers. SUPERGRADS

TECHNOLOGY THAT HELPS YOU PERFORM BETTER.

Get into the micro details of Time Spent per question, Missed Questions, Total Attempt Analysis, Incorrect Attempt Analysis etc. to understand at the micro level as to where you exactly spent all your time, where you could have saved, how time was spent to attempt the incorrect questions, how much time you spent on questions you skipped etc. All this analysis makes you perfectly plan and strategise for the next mock test and eventually the D-day.

Our technology understands a student at the sub-topic level and allows a student to know their weaker and stronger areas by analysing their attempts and performance across each question in the Online Tests. The technology doesn't restrict its intelligence to the correct vs incorrect attempts but also deep dives into the time taken to solve a question by any student vs competitors.

The technology also tells you the easy, medium & difficult questions you attempted, amount of time you spent on each of these category of question and most importantly; how worth was it?

The Sectional and Time Analysis gives a student the macro insights section-wise and also the time spent on each question, total time spent on the ones you got right, got wrong and the ones that were left unattempted.

THE SUPERGRADS ADVANTAGES.

Category	SuperGrads by Toprankers	Others
SDP Engine	Systems Driven Process Engine ensures Quality of Delivery in Every Class, timely completion of Syllabus, Revision, Monthly Reviews & Feedbacks & Regular Testing	NA
Activity Based Learning for Enhanced Outcomes.	Every Month	Doesn't happen at all
Zero Class Cancellation Policy	literally!	Not bothered
Doubt Solving Accountability	Because there are late-nighters and early risers therefore the doubts are solved Online 24X7. Doubts are also solved (systematically) in the offline format, everyday	Randomised & unsystematic
Revisions of Syllabus	Not 1. Not 2. But 3. We complete the syllabus 3 times in a Year Long Batch	Struggle to complete the syllabus.
Dull-learning & de-motivating **Testing Culture**	There's no dull learning. The Testing culture will never demotivate you. Regular Tests are conducted in online & offline to keep you abreast with the outcomes of the classrooms.	Evident
Faculties Orientation	Everyone teaches everyone :) No biasness	Star teachers teach the top students only
Master Classes	Super Master Classes on Strategy, Enhanced Concepts, PIWAT Prep are delivered every month from the CAT Gurus, nationally!	No Centralised Class delivery mechanism.
AI Integration & Testing Ecosystem Capability	bhAlya, the AI Interated big Brother, is the most Advanced Engine in the domain. All feedbacks generated form the AI Engine in the Test Reports are personalised at the sub-topic levels.	The integration is super□cial.
Personalisation	The faculty-student ratio is minimum across classrooms. We promise to add a faculty member at every 51st active student. literally	The ratio is in hundreds
Review & Feedback Mechanism	Happens Offline and Online every month.	:(

"I am Rashmi Sharma, and Top Rankers played a crucial role in my preparation through their structured exam approach. The practice sectionals on the portal and the well-consolidated study material, with everything in one place, made my preparation organized and highly effective."
